Welkom Welcome

Beste collega,

Met veel plezier stellen we u onze catalogus 2027 voor.

Al meer dan vijftig jaar staat Denis-Plants voor kwaliteit, vakmanschap en innovatie in jongplanten uit weefselweek. Doorheen de jaren zijn we uitgegroeid tot een betrouwbare partner voor klanten in binnen- en buitenland, met een breed en voortdurend evoluerend assortiment tropische kamerplanten, vaste planten en helleborussen.

Het afgelopen jaar werd opnieuw gekenmerkt door een economische context vol uitdagingen. Internationale geopolitieke spanningen blijven wegen op de wereldhandel en zorgen voor een aanhoudende inflatoire druk. Ook onze sector ontsnapt daar niet aan. Toch hebben we er bewust voor gekozen om maximaal in te zetten op interne efficiëntie, automatisering en procesoptimalisatie, zodat de impact van deze kostenstijgingen voor u als klant zo beperkt mogelijk blijft.

Vooruitgang betekent voor ons echter meer dan efficiënt produceren alleen. Duurzaamheid vormt al jarenlang een vaste waarde binnen onze onderneming en is vandaag meer dan ooit verweven met onze dagelijkse werking. Van de keuzes die we maken in onze productie tot de manier waarop we omgaan met grondstoffen, energie en verpakking: we blijven investeren in oplossingen die bijdragen aan een toekomstgerichte en verantwoorde sierteelt. In deze catalogus vindt u daarom een aparte rubriek waarin we onze duurzaamheidsinitiatieven en ambities graag toelichten.

Deze catalogus weerspiegelt waar Denis-Plants vandaag voor staat: een betrouwbare partner die blijft investeren, vernieuwen en vooruitdenken, zonder daarbij de focus op kwaliteit en service uit het oog te verliezen.

Wij wensen u veel inspiratie bij het ontdekken van ons assortiment. Heeft u vragen of bent u op zoek naar een passend advies? Ons salesteam helpt u graag verder.

Met vriendelijke groet,
Johan Vrancken

Dear colleague,

It is our pleasure to present our 2027 catalogue.

For more than fifty years, Denis-Plants has stood for quality, craftsmanship and innovation in tissue culture young plants. Over the years, we have grown into a trusted partner for customers both at home and abroad, offering a broad and continuously evolving range of tropical houseplants, perennials and hellebores.

The past year has once again been marked by a challenging economic environment. Ongoing geopolitical tensions continue to impact global trade and maintain inflationary pressure across industries, and our sector is no exception. Nevertheless, we have deliberately focused on improving internal efficiency, automation and process optimisation to minimise the impact of rising costs for you, our customer.

For us, however, progress means more than producing efficiently. Sustainability has long been a core value of our company and is now more deeply embedded than ever in our day-to-day operations. From the choices we make in our production processes to the way we manage raw materials, energy and packaging, we continue to invest in solutions that contribute to a more sustainable and future-oriented ornamental horticulture industry. In this catalogue, you will therefore find a dedicated section outlining our sustainability initiatives and ambitions.

This catalogue reflects what Denis-Plants stands for today: a reliable partner committed to continuous investment, innovation and forward thinking, while never losing sight of quality and customer service.

We hope this catalogue inspires you as you explore our assortment. If you have any questions or would like tailored advice, our sales team will be pleased to assist you.

Kind regards,
Johan Vrancken

Denis-Plants and Sustainability

DUURZAAMHEID ALS DAGELIJKSE PRAKTIJK

Bij Denis-Plants geloven we dat kwalitatieve jongplanten en duurzaam ondernemen hand in hand gaan. Daarom investeren we continu in innovatieve technieken en processen die onze ecologische voetafdruk verkleinen, zonder in te boeten aan kwaliteit, betrouwbaarheid of service.

Gecertificeerde kwaliteit

Duurzaamheid begint met transparantie en een gecontroleerde bedrijfsvoering. Denis-Plants is reeds jarenlang MPS-ABC gecertificeerd, waarmee onze prestaties op het vlak van energie-, water- en meststoffenverbruik, gewasbescherming en afvalbeheer objectief worden opgevolgd.

Sinds 2025 beschikken we bovendien over het MPS-GAP certificaat. Deze internationaal erkende certificering bevestigt dat onze productie voldoet aan strenge eisen inzake traceerbaarheid, productveiligheid, hygiëne, milieuzorg, verantwoord gebruik van gewasbeschermingsmiddelen en meststoffen, risicobeheer en arbeidsveiligheid. Zo bieden we onze klanten de zekerheid van een duurzame en professioneel georganiseerde productieomgeving.

Duurzaam waterbeheer

Water is een kostbare grondstof. Daarom beschikken we over een regenwateropvang van 4,5 miljoen liter. Het opgevangen water wordt continu gezuiverd via een moderne UV-installatie en vervolgens volledig hergebruikt, tot uiteindelijke verdamping. Op die manier gaat er vrijwel geen water verloren en worden ook meststoffen maximaal in het systeem gehouden.

In 2026 namen we bovendien een nieuwe UV-installatie en een geavanceerde meststoffendoseringsunit in gebruik. Hierdoor kunnen we de samenstelling van het gietwater nog nauwkeuriger afstemmen op de werkelijke behoeften van onze planten. Dat resulteert in een efficiënter gebruik van meststoffen en een nog duurzamere teelt.

Duurzaam energiebeheer

Ook op het vlak van energie blijven we investeren. In 2023 werden 456 zonnepanelen geïnstalleerd, goed voor een totale capaciteit van 192 kWp. Een belangrijk deel van onze energiebehoefte wordt hierdoor met eigen, hernieuwbare energie ingevuld.

Daarnaast werden verschillende afdelingen uitgerust met energiezuinige LED-belichting, als duurzaam alternatief voor klassieke assimilatielampen. Om het eigen energieverbruik verder te optimaliseren, investeerden we bovendien in een opslagbatterij van 233 kWh, waardoor meer van de zelf opgewekte zonne-energie lokaal kan worden benut.

Duurzame teelt

Waar de teelt het toelaat, werken we sinds 2025 met veenvrije pluggen. Door het gebruik van veenarme of veenvrije substraten verminderen we onze impact op waardevolle veengebieden en dragen we bij aan een duurzamere productie van jongplanten.

Daarnaast kiezen we maximaal voor biologische gewasbescherming, waarbij natuurlijke vijanden worden ingezet om plagen op een duurzame manier onder controle te houden. Chemische gewasbeschermingsmiddelen worden uitsluitend toegepast wanneer dit noodzakelijk is en steeds volgens de geldende richtlijnen en de principes van geïntegreerde gewasbescherming.

Duurzame verpakkingen

Ook onze verpakkingen maken deel uit van onze duurzaamheidsvisie. Onze plantentrays bestaan voor 100% uit gerecycleerd kunststof, waardoor we bijdragen aan een circulair gebruik van grondstoffen.

We continue investing in *the future*

SUSTAINABILITY IN PRACTICE

At Denis-Plants, we believe that producing high-quality young plants and operating sustainably go hand in hand. That is why we continuously invest in innovative technologies and processes that reduce our environmental footprint without compromising on quality, reliability or service.

Certified Quality

Sustainability starts with transparency and well-managed business operations. Denis-Plants has been MPS-ABC certified for many years, providing independent verification of our performance in energy, water and fertiliser use, crop protection and waste management.

Since 2025, we have also been certified to the MPS-GAP standard. This internationally recognised certification confirms that our production processes meet stringent requirements for traceability, product safety, hygiene, environmental management, responsible use of crop protection products and fertilisers, risk management and occupational health and safety. It provides our customers with the assurance of a sustainable, professionally managed production environment.

Sustainable water management

Water is a valuable resource. That is why we have a rainwater storage capacity of 4.5 million litres. All collected rainwater is continuously disinfected using a modern UV treatment system and is fully reused until it eventually evaporates. This virtually eliminates water waste while ensuring that nutrients remain within the system for as long as possible.

In 2026, we commissioned a new UV treatment installation together with an advanced fertiliser dosing unit. This enables us to match the composition of the irrigation water even more precisely to the actual needs of our plants, resulting in more efficient fertiliser use and an even more sustainable production process.

Sustainable energy management

We continue to invest in energy efficiency. In 2023, we installed 456 solar panels with a total capacity of 192 kWp, allowing us to generate a significant share of our energy demand from renewable sources.

Several production areas have also been equipped with energy-efficient LED lighting, replacing conventional assimilation lighting. To further optimise our energy consumption, we invested in a 233 kWh battery storage system, enabling us to maximise the use of the solar energy we generate on-site.

Sustainable cultivation

Where crop requirements allow, we have been using peat-free plugs since 2025. By replacing peat-based growing media with low-peat or peat-free alternatives, we reduce our impact on valuable peatland ecosystems and contribute to more sustainable young plant production.

We also prioritise biological crop protection by using beneficial insects and other natural enemies to control pests wherever possible. Chemical crop protection products are only applied when necessary and always in accordance with current regulations and the principles of Integrated Pest Management (IPM).

Sustainable packaging

Our commitment to sustainability also extends to our packaging. All of our plant trays are made from 100% recycled plastic, contributing to a more circular use of raw materials.

Sustainability is not an end goal at Denis-Plants, it is an ongoing process of investing, improving and innovating. Together with our customers, we are building a more sustainable and future-oriented ornamental horticulture sector.

-  4.5 million litres of rainwater storage capacity
-  456 solar panels (192 kWp)
-  233 kWh battery storage system
-  Peat-free plugs wherever possible
-  Maximum commitment to biological crop protection
-  100% recycled plant trays
-  MPS-ABC & MPS-GAP certified

Algemene handels- en verkoopvoorwaarden BV DENIS-PLANTS

Artikel 1

Huidige algemene voorwaarden zijn de enige welke toepasbaar zijn, zelfs indien de klant gebruik maakt van eigen voorwaarden. Afwijkingen van deze voorwaarden zijn slechts mogelijk mits uitdrukkelijke schriftelijke instemming.

Artikel 2

Alle offertes zijn vrijblijvend en slechts geldig tijdens de aangegeven termijn. Bestellingen zijn slechts bindend voor BV Denis-Plants na schriftelijke bevestiging. De afgifte van een pro-forma rekening geldt niet als schriftelijke bevestiging. BV Denis-Plants behoudt zich het recht voor bestellingen te weigeren en geen verkoopsovereenkomst af te sluiten wanneer de koper nog tot betaling gehouden is van één of meer reeds vervallen facturen. BV Denis-Plants behoudt zich het recht voor de aanvaarding van een bestelling afhankelijk te maken van de voorlegging door de koper van een bankgarantie of een documentair krediet of van de aanvaarding van de overeenkomst door een kredietverzekeraar. Indien door overmacht BV Denis-Plants enige overeenkomst niet of slechts gedeeltelijk kan uitvoeren, zal zij geen vergoeding verschuldigd zijn. Onder overmacht worden niet-limitatief volgende gevallen begrepen: vervoersproblemen, overheidsmaatregelen, verlies, weersomstandigheden enz. BV Denis-Plants verbindt er zich in deze omstandigheden wel toe te trachten de bestelde goederen te vervangen door gelijkaardige goederen. Indien de levering van de bestelde soorten, maten en aantallen niet mogelijk is, heeft BV Denis-Plants het recht deze door de dichtst benaderende te vervangen, ten ware anders overeengekomen werd.

Artikel 3

De facturen zijn, behoudens andersluidend beding, contant betaalbaar zonder korting op de zetel van BV Denis-Plants. De gefactureerde bedragen zijn verschuldigd, zelfs als deze afwijken van bedragen vermeld in een offerte. Bij niet-betaling op de vervaldag wordt de schuldvordering, zonder voorafgaandelijke ingebrekestelling, geheel en onmiddellijk opeisbaar, onverminderd een conventionele rente per jaar van 10 % en een conventionele schadevergoeding van 10 % met een minimum van 125,00 euro, onverminderd iedere aansprakelijkheid van de koper voor eventueel koersverlies.

Artikel 4

De koper wordt slechts eigenaar van de verkochte goederen nadat de koopprijs zal betaald zijn. De koper verbindt er zich toe de goederen niet te vervreemden, onroerend te maken of te verwerken alvorens volledige betaling te hebben verricht. Dit eigendomsvoorbehoud kleeft enkel aan de betreffende geleverde goederen die nog niet betaald zijn. De verkoop houdt nooit afstand in van enig intellectueel eigendomsrecht tenzij uitdrukkelijk schriftelijk anders overeengekomen.

Artikel 5

Geen enkele klacht nopens gebreken aan de geleverde goederen of de uitvoering van de verkoopovereenkomst zal ontvankelijk zijn indien deze niet binnen 48 uur na ontvangst van de goederen wordt geformuleerd. Ieder protest dient binnen de 8 dagen na ontvangst van de goederen of bij voorafgaande facturatie binnen de 8 dagen na ontvangst ervan, per aangetekend schrijven bevestigd te worden. Welkdanig gebrek aan het geleverde levert aan de koper geen ander recht dan de vervanging ervan, t.t.z. de aansprakelijkheid van BV Denis-Plants is beperkt tot levering van het vervangend product, zonder welkdanige andere vergoeding uit welken hoofde ook lastens BV Denis-Plants te kunnen eisen.

Artikel 6

Het vervoer van de verkochte goederen geschiedt, behoudens andersluidende voorafgaandelijke overeenkomst, steeds voor rekening van en op risico van de koper. Behoudens andersluidende voorafgaandelijke overeenkomst, worden alle goederen afgehaald op de zetel van de verkoper. Tenzij de verkoper aanvaard heeft zelf voor het vervoer van de verkochte goederen in te staan of te laten gebeuren, draagt de verkoper nooit enige verantwoordelijkheid voor het transport of levering bij de koper of derden. Bij vertraging van levering door de verkoper zal de koper nooit recht hebben op enige schadevergoeding. De verpakingskosten en andere voorgeschoten kosten worden aangerekend tegen kostprijs en tegen rembourss genomen.

Artikel 7

Door het plaatsen van een bestelling stemt de klant er mee in dat BV Denis-Plants alle meegedeelde gegevens van de klant mag opslaan en gebruiken conform de GDPR regelgeving.

Artikel 8

Alle overeenkomsten en handelsrelaties worden beheerst door het Belgisch recht. Alle betwistingen dienen beoordeeld te worden door de bevoegde rechtbank te Gent.

General Terms and Conditions of Trade and Sales BV DENIS-PLANTS

Article 1

Present general terms and conditions are the only ones that are applicable, even if the customer uses his own terms and conditions. Derogations from the present terms and conditions are only possible with explicit written consent.

Article 2

No offer is binding and offers are only valid during the indicated period. Orders are only binding for BV Denis-Plants after written confirmation. The issue of a pro forma invoice does not have the value of a written confirmation. BV Denis-Plants reserves the right to refuse orders and not to conclude a sales agreement if the buyer is still liable to pay one or more already expired invoices. BV Denis-Plants reserves the right to make the acceptance of an order dependent on the buyer's submission of a bank guarantee or documentary credit or the acceptance of the agreement by a credit insurer. If by force majeure BV Denis-Plants cannot execute wholly or only partially any agreement, it will not be liable to pay any compensation. Force majeure includes non-exhaustive following cases: transport problems, government measures, loss, weather conditions etc. In these circumstances BV Denis-Plants undertakes to try to replace the ordered goods with similar goods. If delivery of the ordered types, sizes and quantities is not possible, BV Denis-Plants has the right to replace it by the nearest approximate, unless otherwise agreed.

Article 3

The invoices are, unless otherwise agreed, payable in cash without discount at the registered office of BV Denis-Plants. The invoiced amounts are due even if they deviate from the amounts stated in an offer. In the event of non-payment on the due date, the claim will be due and payable in full and immediately, without prior notice of default, notwithstanding a conventional interest of 10% per year and a conventional compensation of 10% with a minimum of 125,00 euros, without prejudice to any liability on the part of the buyer for any currency exchange loss.

Article 4

The buyer only becomes the owner of the goods sold after the purchase price has been paid. The buyer undertakes not to alienate the goods, to transform them into real property or to process them before full payment has been made. This retention of title only applies to the delivered goods that have not yet been paid. The sale never implies a waiver of any intellectual property rights unless expressly otherwise agreed in writing.

Article 5

No complaint regarding defaults in the delivered goods or the execution of the sales agreement will be acceptable if it is not formulated within 48 hours of receipt of the goods. Every protest must be confirmed by registered letter within 8 days of receipt of the goods or in the event of a previous invoice within 8 days of receipt thereof. Any default in the delivered goods does not give the buyer any other right than the replacement thereof, i.e. the liability of BV Denis-Plants is limited to the delivery of the replacement product, whereby no other compensation can be claimed from BV Denis-Plants.

Article 6

The transport of the sold goods is, unless otherwise agreed in advance, always at the risk and expense of the buyer. Unless otherwise agreed, all goods are collected at the seller's head office. Unless the seller has accepted to take care of the transport of the sold goods or to have them done, the seller never bears any responsibility for the transport or delivery to the buyer or third parties. In case of delay of delivery by the seller, the buyer will never be entitled to any compensation. The packaging costs and other advanced costs are charged at cost price and cash on delivery.

Article 7

By placing an order, the customer agrees that BV Denis-Plants may register and use all the data provided by the customer in accordance with the GDPR regulations.

Article 8

All agreements and trade relations are governed by Belgian law. All disputes must be judged by the competent courts in Gent.

NL: De samenstellers van deze catalogus hebben met zorg en zo betrouwbaar mogelijk gewerkt. Mocht de informatie (in woord of beeld) toch fouten bevatten, kunnen wij hiervoor niet verantwoordelijk gesteld worden. Wij kunnen hiervoor niet aansprakelijk gesteld worden voor enig nadeel die daaruit zou kunnen voortvloeien, van welk aard ook.
